HOUSE OF BERMUDA EASTER LILY BULBS.—Grown by Lawrence Cotter, Dorchester, Mass.—Bulbs Supplied by P. H. & Co.
(See Mr. Cotter's testimonial below.)

HENDERSON'S
SUPERIOR

EASTER LILY BULBS.

Henderson's Superior BERMUDA EASTER LILY BULBS

(Lilium-Harrisii.)

	Doz	per 100	per 1000
First Size Bulbs. (5 to 7 inches in circumference.)	\$0.80	\$3.75	\$36.00
Intermediate Size. (6 to 7 inches in circumference.)	0.75	5.00	45.00
Extra Size Bulbs. (7 to 9 inches in circumference.)	1.50	10.00	90.00
Monstrous Size Bulbs. (9 to 11 inches in circumference.)	3.00	20.00	190.00

We wish to lay particular stress upon the size and quality of our Bulbs which are larger, healthier and better than those usually sold—for the reason that no expense is spared in manuring and cultivating. Experience having shown us that bulbs so treated are incomparably superior to bulbs grown on impoverished and unfertilized land year after year, which constitutionally weakens the bulbs and they give results accordingly. This is the general practice—especially among those who endeavor to grow cheaply—to enable them to undersell.

The so-called Bermuda Lily disease is primarily the result of reduced vitality caused by insufficient plant food in the soil. While there is no crop of bulbs on the island entirely free from the disease, yet we have less of it in our fields than any other grower.

WHAT FLORISTS' THINK

—OF—

Henderson's Easter Lily Bulbs

"The Bermuda Easter Lily Bulbs I got from you, (P. H. & Co.) are grand. In fact, every person who has seen them say they are the best ever seen in this part of the country. They are practically free from 'disease.'" LAWRENCE COTTER, Florist, Dorchester, Mass.

"I got 100 Harrisii Lily Bulbs from you last year and 90 of them bloomed all right, they were a nice lot." WILLIS E. HAMILTON, Florist, Belfast, Maine.

"I have been growing your Harrisii bulbs for several years. Last season I divided my order, placing one-half with you and the other half with another prominent seedsman. Yours were the true Bermuda Harrisii, while the others were badly mixed with a worthless variety which grew to enormous height with a very small flower. Your half were all of an even size with flowers of excellent quality. I had the honor of having the finest lilies in Pittsburgh from your bulbs. There were but few of your plants diseased probably so in the whole batch of 6,000 bulbs. You will have my full order next season."

WM. F. LAUCH, Florist, Carrick, Pa.

"I do not hesitate to say that the lot of Harrisii I bought from you this season are the best I received for a number of years. They are the nicest looking plants that I have seen anywhere, and I am glad that it is so, as this was the first time I got my Harrisii from you and which will assure you of getting further orders."

CHRIS BESOLD, Florist, Mineola, Long Island.

✿ ✿ ✿ HENDERSON'S SPECIAL ✿ ✿ ✿
FORCING AND BEDDING HYACINTHS.

These bulbs are of a much larger size than those put in ordinary mixtures; in fact, most of these average as large as those often sent out as "First Size Named" by some dealers. They are of the same age as the first size Fancy Named Hyacinths offered by us on page 8, from which they are the second selection. They will produce grand spikes of bloom, and each sort as offered below, being of one shade of color and blooming at one time, render them of great value for forcing and bedding out, especially in designs, enabling one to secure the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

HENDERSON'S GIANT

"Christmas Forcing"
LILY OF THE VALLEY.

**Henderson's Giant Christmas Forcing
LILY OF THE VALLEY.**

The finest grade of Lily of the Valley in the world for early winter flowering. They will bear twelve to sixteen large bells on strong stalks, with foliage even when forced for extra early; they are equally superior for later or successional crops. The pips average large, plump and regular, with extra long roots. Read what our customers think of them.

"The Christmas Valley I had from you were very fine—better than any I have handled in 18 years experience, and I have kicked myself because I did not order more. Will want a large quantity next season; can't compete now-a-days unless you have something a little better than the other fellow—and the extra price received more than pays the difference in cost between No. 1 stock and ordinary, and there is a satisfaction outside of dollars and cents that goes a long way."

S. A. E. LYMAN, Essex Greenhouses,
Coe Ridge, Ohio.

"We see from the style of bloom that you have a fine strain of Lily of the Valley and you may book us for 30,000 pips for fall delivery."

A. S. MACBEAN, Lakewood, N. J.

HENDERSON'S SPECIAL BEDDING AND FORCING HYACINTHS.

The bulbs under this heading are of a much larger size than those put in ordinary mixtures; in fact they are the second size Named Sorts. They will produce grand spikes of bloom, and the different sorts, as offered below, all being of one shade of color and all blooming at one time, render them of great value for forcing or bedding out, especially in designs, enabling one to secure the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

HARRISII, The True Bermuda Easter Lily.

—We wish to lay particular stress upon the size and quality of our Lillium Harrisii Bulbs which are larger, healthier and better than those usually sold—for the reason that no expense is spared in manuring and cultivating. Experience having shown us that bulbs so treated are incomparably superior to bulbs grown on impoverished and unfertilized land year after year, which constitutionally weakens the bulbs and they give results accordingly.
